ASSINGMENT AND INSTRUCTION
FOR DIRECT PAYMENT TO DOCTOR
PRIVATE AND GROUP ACCIDENT AND HEALTH INSURANCE

Patient: _____

Employer: _____

Claim #: _____

I hereby instruct and direct that _____ Insurance Company to pay
by check made out and mailed to:

Dr. Trevor Berry AND Dr. Russell Teames
3800 W. Ray Road Suite 12
Chandler, AZ 85226

The professional or medical expense benefits allowable and otherwise payable to me under my current insurance policy as payment toward the total charges for the professional services rendered. THIS IS A DIRECT ASSIGNMENT OF MY RIGHTS AND BENEFITS UNDER THIS POLICY. This payment will not exceed my indebtedness to the above mentioned assignee, and I have agreed to pay any balance of said professional service charges over and above this insurance payment.

A photocopy of this Assignment shall be considered as effective and valid as the original.

I authorize the release of any information pertinent to my case to any Insurance Company, Adjuster, or Attorney, or for the purpose of filing a Health Care Lien.

For all Personal Injury cases, a medical lien/release of lien will be filed and copies will be sent to you.

I also authorize Doctor to complain to Insurance Commissioner on my behalf for any reason.

POLICY: Dr. Trevor Berry and Dr. Russell Teames will only file to Major Medical Carriers during Personal Injury Care if

- a) He is not credentialed with that company and/or
- b) If there are no other means for Settlement Re-Imbursement, ie: 3rd Party Liability, Med Pay, etc.

Dated at _____ this ____ day of _____ 20____

PATIENT FINANCIAL RESPONSIBILITY PATIENT RECORD OF DISCLOSURES/HIPAA ACKNOWLEDGEMENT

Thank you for choosing Arizona Chiropractic Neurology Center. We are committed to providing you with the highest quality healthcare. We ask that you read and sign this form to acknowledge your understanding of our Patient Financial Responsibility Policies and HIPPA Acknowledgement.

INSURANCE: The patient (or patient’s guardian, if a minor) is ultimately responsible for the payment for treatment and care. We will bill your insurance for you; however, it is the patient’s responsibility to know the details of their insurance in addition to any lapses in insurance coverage. If you do not inform us of special requirements required by your plan, and we provide medically necessary services that are not covered by your plan, we may bill you directly for those charges.

COPAYS, DEDUCTIBLES & CO-INSURANCE: All patients are responsible for their copayments, deductibles, and past due balances at the time of service.

CANCELLATION/NO SHOW OF APPOINTMENTS: When an appointment is not kept, it creates an unused appointment slot that could have been used for another patient. It is very important that you call to cancel your appointment. If for any reason you need to cancel or reschedule an appointment, please notify our office within 24 hours to avoid a fee of \$30.00.

RETURNED CHECKS: There will be a \$25 service fee for any check returned for insufficient funds.

PLEASE NOTE THAT ANY BENEFIT INFORMATION FURNISHED IS NOT A GUARANTEE OF PAYMENT NOR A DETERMINATION OF MEDICAL NECESSITY AND FINAL CLAIM DETERMINATION WILL BE MADE UPON RECEIPT AND REVIEW OF THE CLAIM. THE PATIENT IS RESPONSIBLE FOR ALL BALANCES OUTSTANDING.

In general, the HIPAA privacy rule gives individuals the right to request a restriction on uses and disclosures of their protected health information (PHI). The individual is also provided the right to request confidential communications or that a communication of PHI be made by alternative means, such as sending correspondence to the individual’s office instead of the individual’s home.

I wish to be contacted in the following manner (check all that apply):

Home Phone: _____

Cell Phone: _____

I authorize Dr. Berry, Dr. Teames and Dr. Santo to discuss my protected health information with the following family members or others involved in my care:

Name: _____

Name: _____

Relationship: _____

Relationship: _____

Phone: _____

Phone: _____

Please check mark if you decline to add anyone at this time.

I understand that I may revoke this authorization at any time, which will then apply to any future disclosures of my protected health information. I have been given the opportunity to review the Notice of Privacy Practices available in the office.

Signature of Patient/Guardian: _____

Arizona Chiropractic Neurology Center

Informed Consent Document

To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

The nature of the chiropractic adjustment

The primary treatment we use as a Doctor of Chiropractic is spinal manipulative therapy (SMT, CMT). We will use this procedure to treat you. We may use our hands or a mechanical instrument upon your body in such a way as you move your joints. That may cause an audible “pop” or “click”, much as you have experienced when you “crack” your knuckles. You may feel a sense of movement.

Analysis/Examination/Treatment

As part of the analysis, examination, and treatment, you are consenting to the following procedures:

- Spinal manipulative therapy --Palpation --Vital Signs
- Range of motion testing --Orthopedic testing --Neurological testing
- Postural analysis --EMS/TENS/Galvanic --Imaging and Lab studies as indicated
- hot/cold therapy --Stretching --massage therapy --exercise rehabilitation
- Microcurrent --low level laser therapy --SSEP --Functional medicine/supplements --Other_____

The material risks inherent in chiropractic care

As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and physiotherapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strains, ligament sprains, cervical myelopathy, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to complications including stroke (CVA). Some patients will feel some stiffness and soreness following the first few days of treatment. I will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me. Cauda Equina Syndrome has been reported in rare cases which requires immediate medical care.

The probability of those risks occurring

Statistically, Chiropractic Care has been demonstrated to be one of the safest of all healthcare practices. Fractures are rare occurrences and generally result from some underlying weakness of the bone which I check for during the raking of your history and examination. CVA has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur one in five million cervical adjustments. Two major studies (2008, 2015) showed there was not causation between CMT and CVA but rather the patient was already presenting with arterial dissection. The other complications are also generally described as rare.

The availability and nature of other treatment options

Other treatment options for your condition may include:

- Self-administered, over-the-counter (OTC) analgesics, ice, head or rest.
- Medical care and prescription drugs such as anti-inflammatories, muscle relaxants and pain killers.
- Hospitalization/Surgery

If you choose to use on of the above noted “other treatment” options, you should be aware that there are severe risks associated with these treatments. Many patients taking OTC NSAID’s such as Ibuprofen and Acetaminophen are not aware that every year there are thousands of deaths associated with their use. No medicine should ever be taken without discussing their side effects and inherent statistical danger with their primary care physician or pharmacist. The PDR is also a good reference regarding pharmaceutical use.

The risks and dangers attendant to remaining untreated

Remaining untreated may create adhesions or scar tissue that can weaken the area and reduce mobility. Further joint degeneration may occur as well as the development of chronic pain syndromes. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE.

I have read or have had read to me the above explanation of the chiropractic adjustment and related treatment. By signing below I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.
